

all-road endurance

gezel

Premium steel disc-brake road frameset designed for long days in the saddle, all year round

- Fully customisable and made-to-order; available in standard sizing or made-to-measure
- Designed to provide the feel and response of a road machine
- Versatile platform suitable for year-round club rides, unpaved "gravel" events, winter training, sportives, light touring

Purpose

The Gezel (old Dutch for journeyman or companion) is designed to be the ultimate all weather mile eater. The inspiration came from serious racers looking for a bike that could be ridden throughout the year but offering the fit and character of their race bikes.

Tested on the Flandrien cobbles, Gezel has the versatility and comfort to be more than capable across several disciplines and delivers the racy feel that is central to the Engineered DNA.

Gezel could be called an "adventure bike", but it is equally suitable as a Sunday Best machine capable of tackling any sportive you can throw at it from Etape to Roubaix.

Features

- The Columbus Life premium steel tube-set is used for its excellent combination of strength and resilience while keeping weight to a minimum
- Fully customisable platform allows tailoring to the individual's needs and desires
- External mechanical routing cable as standard to avoid unnecessary openings in the tubes, thereby avoiding moisture ingress
- Ample tyre clearance for 32c tyres, or 28c with mudguards

Paint & colours

Within the starting price you can choose 1 base colour and 1 highlight colour to apply to our standard graphic application as pictured overleaf.

However, as each Engineered frame is made to order we encourage our customers to realise their vision and create something extra special with bespoke colours and finishes.

Ordering

All Engineered bicycles are made to order for each individual customer. So that we can understand your exact requirements please get in touch and we will organise a chat to discuss your hopes and dreams!

This will enable us to put together a tailored quote for your perfect bicycle.
